MET

Note can be edited after it is selected (Tapped)

MET

Display grade average

MET

Source Link is displayed and saved successfully

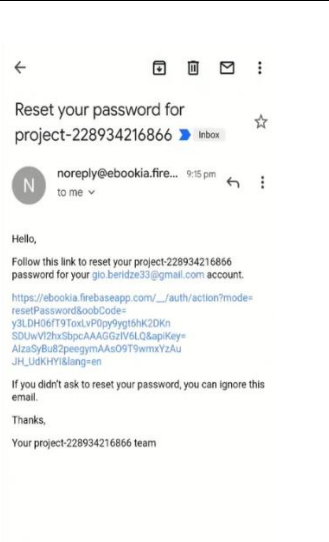

MET

ink redirects user to webpage/app

Forgot password works and reset link is sent to user's email address

MET

Recommendations for further development<sup>1</sup>

**Sources:** Improve design for better visuals, add functionality to view videos in the application instead of redirection.

**Added functionality:** Add reminder function for Notes, so user gets notified about tasks.

**Animations and transitions:** Improve the design by creating animated buttons and page transitions.
